

TPA FINANCE

DISCOVER WHY INVENTORY FINANCING
IS MAKING WAVES IN DEFI

Who We Are

TPA Holdings has years of proven success with its inventory financing model, which is a responsibility of the TPA Retail division. The company's subsidiaries span a wide range of industries and capabilities and ismedia is listed company in Korea which is South Korea's major stock exchange (KSE).

An Opportunity For Insiders

The TPA Pool™ allows participating TPA token holders to generate industry-leading returns from a tried-and-true inventory financing model. All loans are fully collateralized with real-world inventory, essentially eliminating risk.

DeFi and Investor Safety

Decentralized Finance (DeFi) technology introduces a new level of security and efficiency to an already-working lending model. The result is higher returns and lower risk, automated and protected by smart contracts and decentralization.

Defi Security

The TPA Pool is a smart contract that automates payouts to TPA holders and is fully guaranteed by the Liquidity Reserve.

Real Collateral

All loans are fully collateralized by real-world inventory that can be sold through partnerships with South Korea's largest TV shopping networks.

Proven Performance

TPA Retail is a major corporation with key partnerships and diverse international capabilities, resulting in years of success with this model.
